

ANCI SUN

UX Designer

San Francisco, CA

Former recruiting professional turned UX Designer. As a recruiter, I developed a user-centered mentality by engaging with candidates and managers to improve and streamline hiring processes. With this user-centered mentality, I'm committed to creating accessible and inclusive products to improve human health and happiness.

Projects

Ink.io - mobile tattoo app
July 2019 - November 2019

Android app with the goal of centralizing tattoo information with a focus on establishing an online community that promotes inclusivity and awareness.

Wordly - mobile vocabulary app
October 2019 - current

iOS app designed with the goal of helping users learn new vocabulary by implementing creative and engaging methods to help them stay consistent with their learning.

Experience

Volunteer UX Designer - Motherhood.Design
November 2019 - present

Coordinating with design lead to test user onboarding flows and conduct usability testing with participants.

UX Freelancer - Various Projects
October 2019 - present

Currently building Wordly to help users learn vocabulary by noting language trends within the United States. Collaborating with developers to build a high quality product.

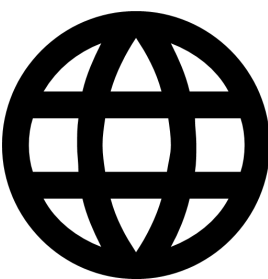

Education

UX Design Certificate - CareerFoundry
April 2019 - November 2019

BA, Political Science/English - UC Berkeley
August 2013 - May 2017
