Webflow

Former recruiting professional turned UX Designer. I've always been interested in design. Upon hearing about UX, I knew it hit the sweet spot between my interest in technology and fascination with human behavior. Now, as a designer, I'm committed to creating accessible and inclusive products to improve human health and happiness.

Projects

Wordly - mobile vocabulary app

October 2019 - present

Designing a mobile iOS app using Sketch and Invision to help users learn new vocabulary by implementing engaging learning methods.

Ink.io - mobile tattoo app

July 2019 - November 2019

Created a mobile Android app using Adobe XD to centralize tattoo information for users and artists, with the additional goal of promoting a welcoming tattoo community.

Experience

UX Freelancer - various projects

October 2019 - present

- Organized & conducted user interviews to identify areas of improvement for Wordly's user flows
- Created wireframes using Balsamiq and Sketch that demonstrated improved user flows

Recruiting Specialist - Juniper Square

March 2019 - October 2019

- Partnered with hiring managers and recruiting leads to analyze, improve, and execute on hiring processes
- Successfully helped company grow from 60 employees to 120 employees across all departments

Education

UX Design Certificate - CareerFoundry

April 2019 - November 2019

BA, Political Science/English - UC Berkeley

August 2013 - May 2017
